Faculty Activities Documentation

Project Description:

Faculty Activities Documentation software is exclusively based on data collection from faculty's following activities;

- 1. Paper presentation/publication in Journal/Conference
- 2. Sttp/workshop/online_courses/Industrial_Visit/Guest_Lecture attended or organized.
- 3. Faculty Interaction
- 4. Co-curricular or extra-curricular activity etc.

Using data from above, qualitative and quantitative interpretation/analysis by which sense and meaning are to be made for research. Software helps to track record of all these activity with various options available (screenshots are shown below). Using the data one can discover useful information, suggest conclusions, and support decision-making and also to explore multi-talented personalities among all. Software also allows one to answer questions, solve problems, and derive important information from sea of entries.

Overall flow of system is shown below:

1. Login Screen

M my co-curricular activity - justic X M Scanned Does - tryambake.justic X Departmental Details
